

## Crosswalk Between Dual Language Learner Policy Recommendations and Dual Language Learner Pilot Study Findings

This document is designed as a crosswalk between Dual Language Learner (DLL) Policy/Advocacy Issues<sup>1 2</sup> (as they exist in literature and the Master Plan for Early Learning and Care, shown in red ink), a synthesis of the DLL Pilot Study in-depth phase findings, and summary of how the expansion phase<sup>3</sup> evaluation will address the issues.

### Overarching DLL Issues

There are three overarching DLL issues, with specific policy recommendations under each, and for some, a notation in **red** of how each recommendation is linked to the recommendations in the Master Plan for Early Learning and Care. (See pages 9-11 for a summary of Master Plan DLL-focused recommendations.)

#### I. The early learning and care workforce must be prepared to serve DLLs.

- a. Require specialized training on culturally and linguistically responsive practices, and how to eliminate bias and inequitable practices **(2.A.II.c Critical Competencies for supporting DLLs)**
- b. Create/improve workforce preparation pathways in higher education programs to ensure all providers demonstrate foundational understanding of language acquisition and best practices for serving DLLs **(2.A.V. Provide multiple options for program pathways, including a pre-K–grade 3 credential; 2.B.I.c Career pathways and online professional development [PD]/resources to the workforce)**

#### II. Early learning and care programs must support children’s home language in addition to English development.

- a. Develop standards for early learning and care programs that require all programs to use instructional approaches that support home language competency as a pathway to bilingualism **(1.C.1.a Informing CSPP Standards; 2.A.II.a Streamline standards, 2.A.II.b Health and Safety and Child Development topics for family, friend and neighbor [FFN] providers)**

---

This document is the background for the Master Plan for Early Learning and Care Recommendations for DLLs. Retrieved from: [Promoting Equitable Early Learning and Care for Dual Language Learners](#)

<sup>2</sup> Additional resources for policy recommendations and supporting data are from the California Master Plan for Early Learning and Care: Making California for all kids (2020) (retrieved from [Master Plan for Early Learning and Care: Making California For All Kids](#)); and Meek, S., Iruka, I. U., Allen, R., Yazzie, D., Fernandez, V., Catherine, E., McIntosh, K., Gordon, L., Gilliam, W., Hemmeter, M. L., Blevins, D., & Powell, T. (2020). Fourteen priorities to dismantle systemic racism in early care and education. The Children’s Equity Project. Retrieved from: <https://childandfamilysuccess.asu.edu/cep>

<sup>3</sup> The Expansion Phase is framed around three broad goals, which address the policy issues. The broad goals include: **Goal 1:** Strengthen teacher knowledge and use of instructional strategies that are effective in supporting DLL children’s learning and development during COVID-19 and recovery from the pandemic, including English and home language support; **Goal 2:** Strengthen family engagement strategies that support DLLs and their families through this public health emergency, prevent DLLs from falling further behind, and emphasize the importance of home language and how to support children’s home language development; **Goal 3:** Strengthen a systemwide commitment to DLLs and cross-agency plan for supporting DLLs’ learning and development as the early learning and care systems rebuilds from the COVID-19 crisis.

## Crosswalk Between Dual Language Learner Policy Recommendations and Dual Language Learner Pilot Study Findings

- b. Require program materials to reflect and value DLLs’ home cultures and languages, and be applicable and accessible to diverse early learning setting types
- c. Identify culturally, linguistically, and developmentally appropriate assessment tools and support early learning and care programs to use them. **(1.C.1.a Informing CSPP Standards; 1.D.III.c. Bilingual resources for the workforce)**
- d. Identify a standard tool and establish a process to collect home language data and family information when children are initially enrolled.

### III. Home language competency is critical to fostering bilingualism, biliteracy, and long-term academic achievement

- a. Increase advocacy and media around the benefits of bilingualism so policymakers, teachers, and parents prioritize home language competency **(DLL Knowledge Brief - Public Awareness Campaign)**

## DLL Issues, Pilot Finding, and Opportunities for Leverage

### I. The early learning and care workforce must be prepared to serve DLLs.

DLL Policy Recommendations	What We Know from the In-Depth Study	Expansion Phase Research Questions

Crosswalk Between Dual Language Learner Policy Recommendations and Dual Language Learner Pilot Study Findings

III. Home language competency is critical to fostering bilingualism, biliteracy, and long-term academic achievement.

DLL Policy Recommendations	What We Know from the In-Depth Study	Expansion Phase Research Questions
<p>a. Increase advocacy and media around the benefits of bilingualism so policymakers, teachers, and parents prioritize home language competency (<b>DLL Knowledge Brief - Public Awareness Campaign</b>)</p>	<p><i>The Early Learning and Care Context for Dual Language Learners in California</i> (November 2019)</p> <ul style="list-style-type: none"> <li>- Early learning stakeholders value bilingualism, but they report that parent/family beliefs are a challenge. Parents often prioritize development of English proficiency for their children.</li> </ul> <p><i>Quick Facts: The Landscape of Early Learning and Care Programs Serving DLLs in California</i> (October 2020)</p> <ul style="list-style-type: none"> <li>- More than one in three programs report using English only instruction: 27% of DLL-serving programs reported using only English instruction, and another 9% reported using English only instruction in some of their classrooms.</li> </ul> <p><i>Approaches to supporting Dual Language Learners in California’s Early Learning and Care Programs</i> (May 2021)</p> <ul style="list-style-type: none"> <li>- Directors value bilingualism and have some understanding of DLL development, but many still believe learning two languages can be confusing for children (30% centers; 44% of FCCHs).</li> <li>- Although site directors generally express their support of bilingualism, they prioritize English over home language or bilingual development in their instructional practices.</li> </ul> <p><i>Research Brief: Engaging Dual Language Learner Families in Their Children’s Education</i> (April 2022)</p> <ul style="list-style-type: none"> <li>- Most of the 1791 families responding to a survey indicated they want their children to be bilingual and most families (85%) reported</li> </ul>	<p>Expansion Phase Evaluation research questions:</p> <ul style="list-style-type: none"> <li>• What factors drive or hinder successful implementation of advocacy efforts that promote the value of bilingualism?</li> <li>• How did counties integrate DLL advocacy efforts into local systems? Which strategies are scalable?</li> </ul>

### Crosswalk Between Dual Language Learner Policy Recommendations and Dual Language Learner Pilot Study Findings

DLL Policy Recommendations	What We Know from the In-Depth Study	Expansion Phase Research Questions
	the program told them about the benefits of their child learning two languages, or that their culture and language are important.	

### Select DLL Recommendations from the Master Plan

Master Plan Components			Key Word
Goal 1: Unify and Strengthen Programs and Services to Support Children's Learning and Development			
STRATEGY C. Provide California's Three- and Four-Year-Olds with Access to a High-Quality Preschool Experience	Action Plan 1.C.I. Align and strengthen current program design and standards for an enhanced preschool program serving three- and four-year-olds.	1.C.I.a. Advance legislation and promulgate regulations to create a new California preschool program with enhanced program standards/elements that apply to all organizations providing preschool services, including school districts, centers, and family child care (including an intentional DLL focus).	<b>Informing CSPP Standards</b>
STRATEGY D. Ensure Equitable Treatment of All Children and Eliminate Bias through Practices and Training	Action Plan 1.D.II. Require specialized training and development to address dual language development, children with disabilities, and how to eliminate bias and inequitable practices.	1.D.II.c. Incentivize and provide affordable community-based professional development and online professional development offerings to license-exempt providers on best practices and strategies that support DLLs and children with disabilities.	<b>FFN professional development</b>
	Action Plan 1.D.III. Update early learning guidelines to expand and integrate throughout DLLs and children with disabilities.	1.D.III.a. Update early learning foundations, curriculum frameworks, and program guidelines (infant/toddler and preschool) to incorporate culturally and linguistically responsive, family-centered, and evidence-based pedagogy and practices that: i. Include anti-bias	<b>Updating Preschool Learning Foundations</b>

**Crosswalk Between Dual Language Learner Policy Recommendations and Dual Language Learner Pilot Study Findings**

		and trauma-informed practices; ii. Reflect current strategies in support of Universal Design for Learning by addressing research on first quality instructional strategies; iii. Include best practices and strategies for inclusive learning and supporting children with disabilities; iv. Strengthen dual language strategies and practices and promote authentic, reciprocal relationships with families as their children’s first and most important teachers; and, v. Promote authentic, reciprocal relationships with families as their children’s first and most important teacher.	
	Action Plan 1.D.III. Update early learning guidelines to expand and integrate throughout DLLs and children with disabilities.	1.D.III.c. Provide bilingual materials and resources for early learning and care professionals working with DLL children and families. <ul style="list-style-type: none"> <li>● <b>From the DLL Knowledge Brief:</b> Develop and disseminate resources to assist providers and early educators to support dual language learners and their families.</li> </ul>	<b>Bilingual resources for the workforce</b>
	Action Plan 1.D.III. Update early learning guidelines to expand and integrate throughout DLLs and children with disabilities.	1.D.III.d. Update the English Learner Roadmap to address birth to age three to fully address the learning and development continuum for DLLs, acknowledging that language development begins at birth.	<b>Updating the EL Roadmap</b>
	Action Plan 1.D.IV. Collect and use data to support DLLs and children with disabilities and address issues of equity.	1.D.IV.b. Ensure that continuous quality efforts reflect early learning guidelines that address the unique needs of DLLs and children with disabilities (i.e., a programmatic approach). <ul style="list-style-type: none"> <li>● <b>From the DLL Knowledge Brief:</b> Include DLL indicators and supports as part of the redesign of Quality Counts California.</li> </ul>	<b>DLLs in QCC</b>
	Action Plan 1.D.V. Guarantee equitable access to early learning and care for all.	1.D.V.f. Create additional incentives and supports for providers and programs, such as grants for professional development and access to targeted technical assistance related to supporting DLLs and children with disabilities.	<b>Incentives and supports to the workforce</b>
Goal 2: Support Children’s Learning and Development by Enhancing Educator Competencies, Incentivizing and Funding Career Pathways, and Implementing Supportive Program Standards			
STRATEGY A. Enhance Educator Competency to Optimally Support Child	Action Plan 2.A.II. Revise workforce standards as part of revisions to licensing, program,	2.A.II.c. Focus child development training on critical skills for the California workforce. Ensure that child development training includes a focus on serving DLLs and children with disabilities, and on how to	<b>Critical Competencies for supporting DLLs</b>

**Crosswalk Between Dual Language Learner Policy Recommendations and Dual Language Learner Pilot Study Findings**

Learning and Development	and funding standards.	provide trauma-informed care.	
STRATEGY B: Incentivize, Support, and Fund Career Pathways	Action Plan 2.B.I. Complete development of a comprehensive professional learning system that supports multiple pathways for early learning and caregivers and professionals.	2.B.I.c. Continue to develop a robust online professional learning platform, building on current funding from PDG-R and CCDF. The development process will include partnerships with state and community-based partners and yield a platform that: 1) provides a rich ecosystem of responsive, engaging content that supports competency development, career advancement, and degree attainment; and, 2) ensures the full workforce has access to content on critical topics, including child development and learning that is culturally and linguistically informed; knowledge about how to effectively serve DLLs; practices to address resilience/ trauma-informed care and implicit bias; and, include and meet the needs of children with disabilities.	<b>Career pathways and online PD/resources to the workforce</b>
Goal 3: Unify Funding to Advance Equity and Opportunity			
STRATEGY A: Adopt a Tiered Reimbursement Rate with Appropriate Adjustments	Action Plan 3.A.I. Adopt a tiered reimbursement rate with appropriate adjustments.	3.A.I.e. Determine adjustments for child characteristics, including factors for DLL, children with disabilities, foster youth, poverty, and other factors. The setting of such adjustments addresses costs and provides incentives for inclusion.	<b>Costs associated with serving DLLs (Tiered Reimbursement)</b>
Additional Recommendations from the <a href="#">DLL Knowledge Brief</a>			
Program Approaches that Support Home Language and Promote Bilingualism		Develop a public awareness campaign that focuses on the benefits of bilingualism.	<b>Public Awareness Campaign</b>
Preparing the Early Learning and Care Workforce to Serve DLLs	Transition to a competency-based workforce preparation model.	Develop a bilingual authorization to prepare and certify early educators with the necessary linguistic proficiency and pedagogical skills to teach in a dual-language program.	<b>Bilingual Authorization</b>
	Build the capacity of coaches, trainers, and higher education faculty. To better prepare aspiring early educators serving	Fund demonstration projects to train and build the DLL capacity of faculty at colleges and universities.	<b>Demonstration projects / IHE pilots</b>

**Crosswalk Between Dual Language Learner Policy Recommendations and Dual Language Learner Pilot Study Findings**

	children birth to age five, it is necessary to enhance the capacity of coaches, trainers, and higher education faculty to provide DLL-specific content.
